Patio and Hardscape Products

The authentic look of natural stone without the installation hassles!

Your dream patio is only 5 EASY steps away!

- 1 Establish a positive grade sloping away from structures.
- 2 Install a solid base of compactable fill.
- 3 Cover compacted base with 1" layer of washed masonry sand.
- 4 Lay patio stones with uniform 1/2" joints.
- 5 Fill joints by sweeping in washed masonry sand, polymeric sand or other suitable joint filler.

That's all there is to it!
No irregular shapes to fit, no varying individual stone thicknesses to level.

At EarthStone Products we pride ourselves in quality. Quite simply, we offer the best alternative to natural stone. Our products are laboratory tested and field proven. Over the years we have established a loyal following of customers by providing consistent quality and extremely realistic stone products.

Landscape professionals and do-it-yourselfers select EarthStone patio stones for the look and durability of natural stone without the installation hassles.

Give our products a try. We are certain you will agree that EarthStone is "the natural choice for handcrafted stone".
